

ONDAMED works with a specific protocol that utilizes finely tuned biological frequencies. The protocol helps reduce addictive patterns, relaxes and strengthens the overall well-being. ONDAMED has consistently achieved astounding rates of success with its unique Stop-Smoking protocol, consistently. Experience demonstrates that all areas can be harmonized by applying pulsed electro magnetic frequencies ranging between 0.1 and 32,000 Hz.

This is just one of the many areas ONDAMED has achieved impressive results.

**This is what Ex-Smokers say about the Stop-Smoking Program:**

"I smoked 20 cigarettes a day for 23 years. After a one hour ONDAMED session I have no hunger for nicotine, no sense of abstinence and absolutely no desire to smoke."

**Myrna M.**, Denmark

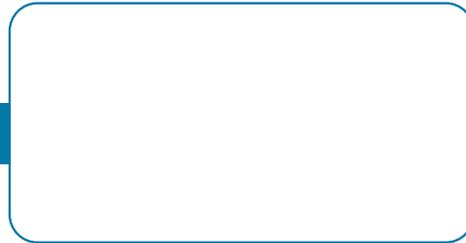

"Now that I am part of the non-smoking community, I don't have to deal with the shame of my addiction and the secret getaways to sneak a cigarette. Many thanks!"

**Ingrid S.**, Germany

"It's crazy, I am not smoking and have no desire to smoke! After one session with ONDAMED I stopped a thirty year, one pack a day habit."

**Linda B.**, Norway

**STOP  
IN THE NAME OF LOVE.  
AND ONDAMED.**

((( ONDAMED® )))

a better way to make you better

Stop Smoking

We help you achieve your goal!

**ONDAMED,  
a better way to make you better  
introduces a better way  
to stop smoking.  
Proven 95% effective.**

**Fact** Nicotine consumption causes energetic disturbances that manifest primarily in the areas of the brain and spleen.

**Fact** The STOP SMOKING Protocol — based on years of research conducted in cooperation with ONDAMED Practitioners — identifies these disturbances. And using the ONDAMED Biofeedback System, these disturbed areas can be biophysically harmonized into a healthy regulated state, thus enabling patients to live a smoke-free life.

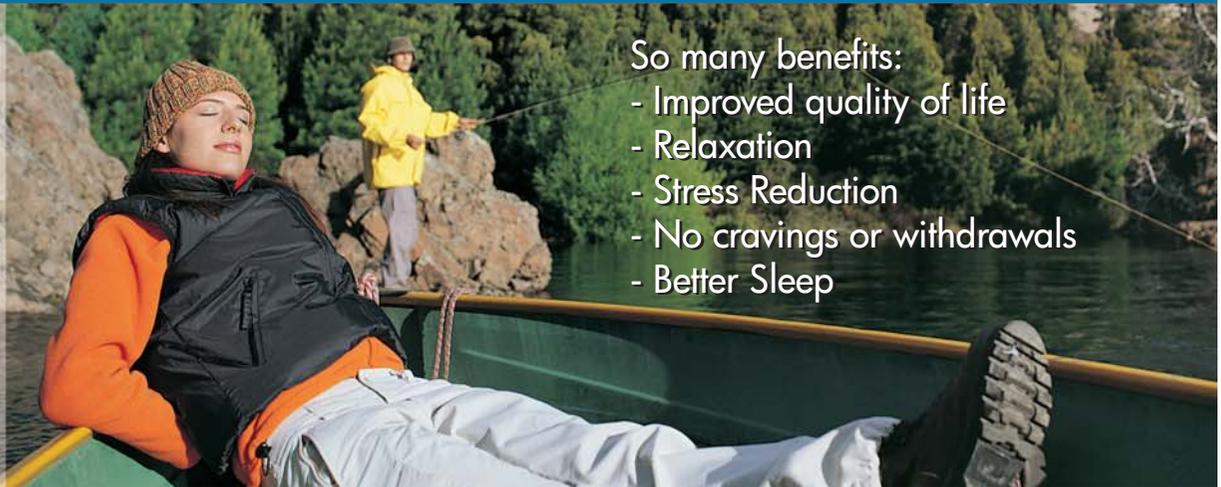

The ONDAMED protocol has been used worldwide with remarkable results. Together with the ONDAMED, you can help your patients free themselves of nicotine addiction and the associated high costs for cigarettes. In just a few visits, patients happily stop smoking with lasting results.

**“In only 1-3 forty-five minute sessions, 95% of our clients stop smoking. We see about 200 patients a month in one of our 3 clinics. Our results helping patients with their smoking addictions for over 5 years with the ONDAMED technology are truly amazing.”**

Beata Andreassen, Therapist, Denmark

Discover the nature within.

So many benefits:

- Improved quality of life
- Relaxation
- Stress Reduction
- No cravings or withdrawals
- Better Sleep
